The democrats in congress have re-
solved to repeal the ten per cent tax on
state bank issues.

Election draws near and candidates
will soon be making their wants known to
the dear people.

Murders and suicides are more preva-
lent throughout the United States than
at any time in recent years.

Dave Hill stubbed his toe against the
income tax bill and dealt it a vicious
kick the other day in the senate.

The jury in the Heath trial at Fresno
have disagreed. It is said they stood
ten to two in favor of conviction.

Los Angeles is reveling in flowers and
festivity. The fiesta de Los Angeles is
now on in the Garden City of Southern
California.

The only way the Wilson bill will ever
get through congress will be to put a
free silver rider to it and the silver men
will send it through a humming.

Oklahoma people gave an exhibition
the other night by burning in effigy Sen-
ator Wolcott, of Colorado, on account of
his attitude on a bill that effected one of
their towns.

Mohave county will have more capital
in search of investment this summer
than ever before. We have the best
mines in Arizona and why should we not
enjoy a good sized boom.

Cleveland democrats were slaughtered
at the polls in Albany Tuesday. The
Hill democrats united with the republi-
cans and the anti-snappers were snowed
under by an overwhelming vote.

It is now thought that Arizona's state-
hood bill will not be reported to the Sen-
ate until the latter part of June. When
does congress propose to adjourn? Is the
question now being asked by the peo-
ple.

The Mexican banks are in favor of the
proposition advanced by Senator Wolcott
in regard to the coinage of Mexican
dollars for use in the Chinese trade. The
idea is to build up trade relations with
the Asiatic ports.

Senator Hill's speech on the tariff was
received by the democrats in silence and
by the republicans with applause. A
few republicans offered him congratula-
tions after the close, but the democrats
were impressively silent.

Strikes are being inaugurated all over
Pennsylvania and thousands of men are
now in enforced idleness. The revolt
against low prices of labor is confined to
the coal miners and will undoubtedly
spread to other branches of trade.

Lord Roseberry, England's new pre-
mier, has notified the London Board of
Trade that he will give the silver ques-
tion his earliest consideration. Rose-
berry holds different views on this great
subject from those held by Gladstone.

The Yuma Sentinel pays a splendid
tribute to Gov. Hughes in its last issue.
It says that territorial institutions were
never better managed than since they
passed into the hands of his appointees
and that thousands of dollars have been
saved to the taxpayers.

The democrats are not so badly de-
moralized in Arizona as some persons
seem to believe. In northern Arizona
they are in full accord with the old
Jacksonian principle, while in the south
they are imbued with the same idea. It
they can agree on a suitable candidate
for congress, one who is free from the
petty spites and jealousies they will win,
providing that man is an outspoken ad-
vocate of free coinage. No man can get
the support of the miners who is not in
accord with their financial ideas. We
do not believe that Mark Smith will be a
candidate, although he can have the
nomination simply for the asking.

The Daily Arizona Enterprise is dead
It was a good paper while in life and we
regret to learn of its demise. It is
thought that the remains will be re-
moved to Phenix and a democratic daily
started in the capital city.

The Denver mint have been receiving
big shipments of gold from Arizona.
Some months as high as \$20,000 has
been received. This is a good showing
as usually the greater amount of gold has
gone to California from our gold belts.
